Introduction

- 1 Business networking**
Most people do not understand business networking.

Introduction to Networking

- 2 Networking vs prospecting**
Understanding networking means understanding how to convert leads to sales.
- 3 Successful networking strategies**
Successful networking means being strategic.
- 4 Mistakes with networking**
Networking gets a bad reputation because people do it wrong.

Putting Networking to Work

- 5 Perfect networking call**
Afraid of getting on a call and not knowing what to say?
- 6 Running networking events**
Becoming a host for your own event makes you the authority in your network.
- 7 Reconnecting with contacts**
When a relationship goes stale and you want to reconnect you need to use a reconnecting strategy.

8 Automatic networking habits

Willpower alone is insufficient for achieving success; it's essential to establish automatic networking habits.

Preparation for Networking

9 Effective networking preparation

If you fail to prepare, you might as well prepare to fail.

10 Understanding yourself

How can anyone know you if you do not know yourself! After this lesson you will be able to describe yourself so others can understand you too.

11 Managing networking expectations

Mismanaged expectations with networking leads to failure and burnout.

12 Establishing a giver mindset

The secret to living is giving but most people are taking and faking.

13 Elevator pitch strategy

People do not remember what you say, they remember how you make them feel.

Places for Networking

14 Networking everywhere

Networking can be done anywhere you go, even in places you did not think of.

15 Popular networking groups

Understanding the types of groups available for networking is important.

16 Trade show networking

Trade shows and conferences are a great place to meet people.

17 Virtual networking strategies

In a global economy with high speed internet and state of the art technology we can connect anywhere.

Managing Your Networking

18 CRM for networking

Using a relationship management software is key to keeping track of your relationships.

19 Follow up systems

Most people show up and throw up, but the fortune is in the follow up.

20 Social media strategy

Maintaining a strong presence on social media is crucial for effective networking in today's interconnected landscape.

21 Getting responses

Why are people not responding to your communication?

Conclusion

22 Becoming a connector

Becoming a connector is not just a skillset, it's a role you play in your life and the lives of the people around you.
