Introduction

1 What makes someone creative?

You might not think of yourself as creative, but the reality is that everyone can exhibit creativity.

Creativity for Everyone

2 Creative vs. artistic

Often, when someone says they're not creative, they're really saying they aren't artistic.

3 The value of creativity

Creativity is one of the most in-demand skills from employers seeking to hire.

4 Creativity at work

Those who think creatively or embrace their creative side might approach problems, make decisions, or work with others differently.

5 Feeding your creativity

Creativity is a skill that you can refine, develop, and grow over time.

6 Being creative with others

Creativity is a skill everyone can benefit from, and helping others around you flex this muscle gives you creative practice, too.

Conclusion

7 Putting it all together

Now that you've finished this course, you should feel prepared to start showcasing your creative side and encouraging others to do the same.
